

C-MAP[®] MAX Chart Plotter Profile: SI-TEX[®] Navmate & ColorMax Series

This family of advanced SI-TEX GPS/WAAS chart plotters offers boaters the full range of MAX electronic chart features in an affordable, easy-to-operate package. Boaters can choose from a 5.7" vertical color LCD (**Navmate**), 7" color LCD with a 16:9 ratio widescreen (**ColorMax Wide**) or large 10.4" color LCD (**ColorMax 11**). Each high-resolution display is sunlight viewable for open boats and delivers the "big picture" when it comes to MAX features. Additionally, each is expandable by adding SI-TEX's optional ES502 dual-frequency fishfinder module.

Value Added Data

Embedded harbor, inlet and marina photos

Value Added Data

Coastal road, land data & Points of Interest

C-Marina Charts

Highly detailed drawings of marinas showing docks and facilities

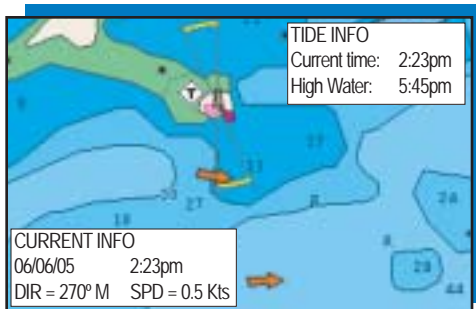

Navmate

ColorMax Wide

ColorMax 11

Real Time flashing color NavAids
i.e. Flashing (1) **Red**, 3 second(s) 4 miles;
Flashing (1) **Green**, 3 second(s) 4 miles.

Perspective View

"Birds Eye View" providing a forward-looking angle

C-MAP MAX Chart Plotter Profile: SI-TEX Navmate & ColorMax Series

Additional MAX features:

- **Guardian Technology**
Anti-grounding alarm sounds when approaching charted obstructions, rocks, shoals and land areas.
- **NavAid IDs**
NavAids are displayed with appropriate designations and true-to-life attributes.
- **Safety Status Bar**
Status of six important functions. Red color indicates possible risk.
- **Clear View**
Chart objects are fully prioritized to allow intelligent de-cluttering.
- **Flexi-Zoom**
Underzoom of charts with no increase in clutter, overzooming to a much greater magnification.
- **Expanded Coverage Areas**
Larger than ever and at the same cost!
Wides @ \$199, MegaWides @ \$299

Chart Plotter Highlights:

- Color LCD daylight viewable displays
- Programmable soft keys and joy stick cursor for easy operation
- Dual slots for 2 C-MAP cards (single slot for Navmate and ColorMax Wide)
- GPS WAAS 18-channel receiver. (The Navmate and ColorMax Wide are available with internal or external antennas.)
- Navmate and ColorMax Wide store up to 500 waypoints or marks, 25 routes and 1000 track points. ColorMax 11 stores up to 3000 waypoints or marks, 50 routes and 5000 track points plus has two video ports
- Depth graph feature accepts input from onboard sounder or optional Active Transducer to display graphic presentation of vessel's current depth and recent depth history
- AIS (Automatic Identification System) targets are displayed with vessel information when interfaced to an AIS receiver
